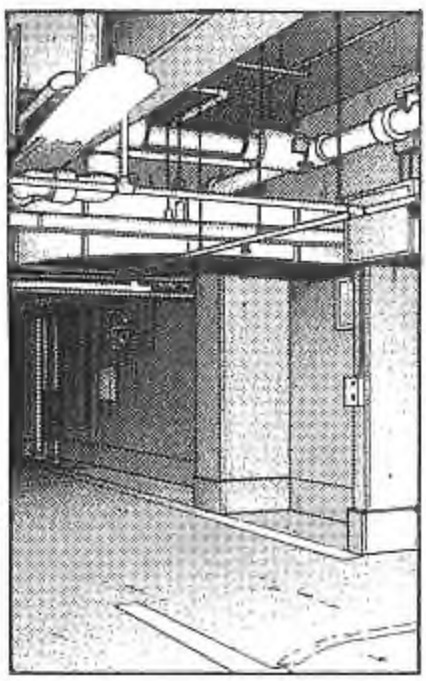
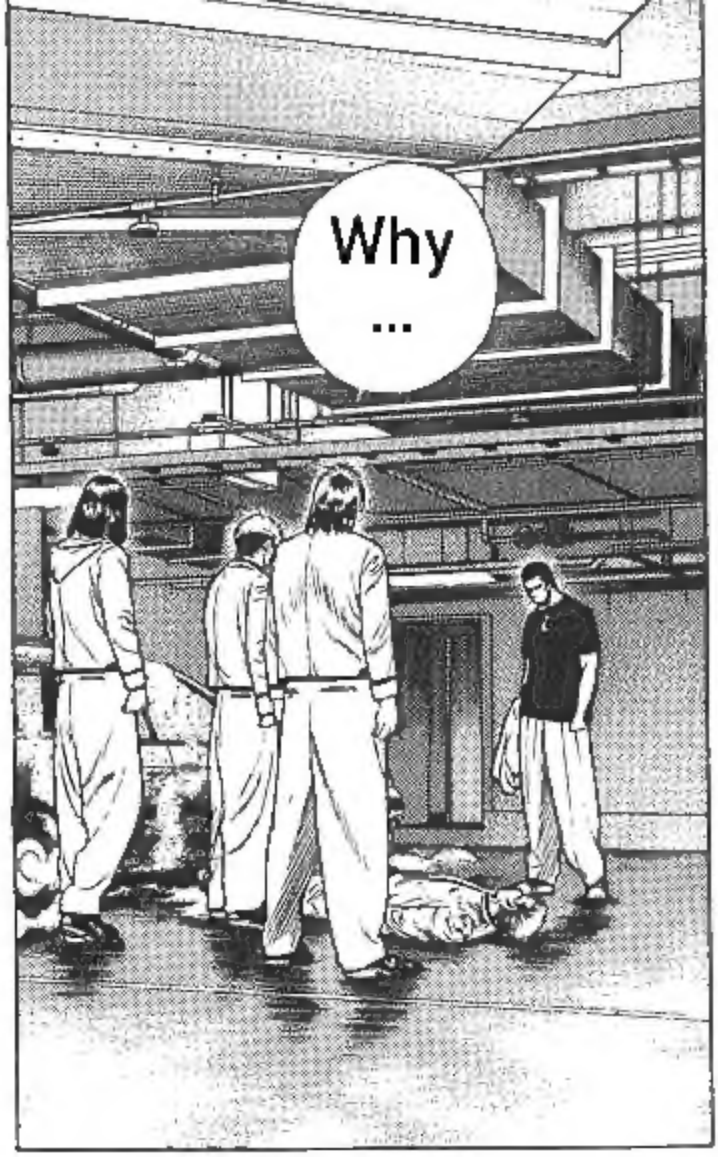
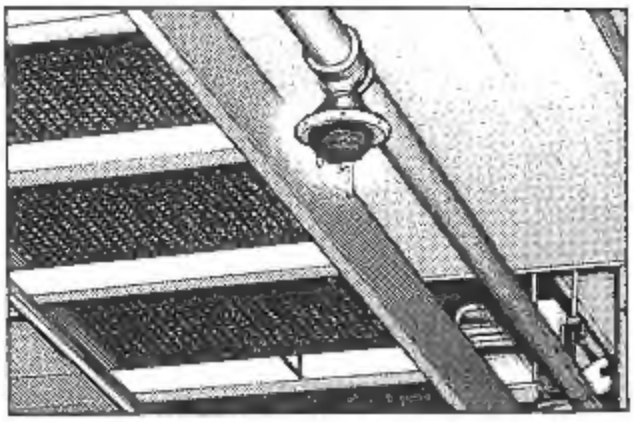
It seems like it's over.
Sigh
I'm never following you into this kind of battle again.



Everything's settled, but...
Doesn't it smell like something's burning?



Why ...



Why, for this traitor, Hatayama...

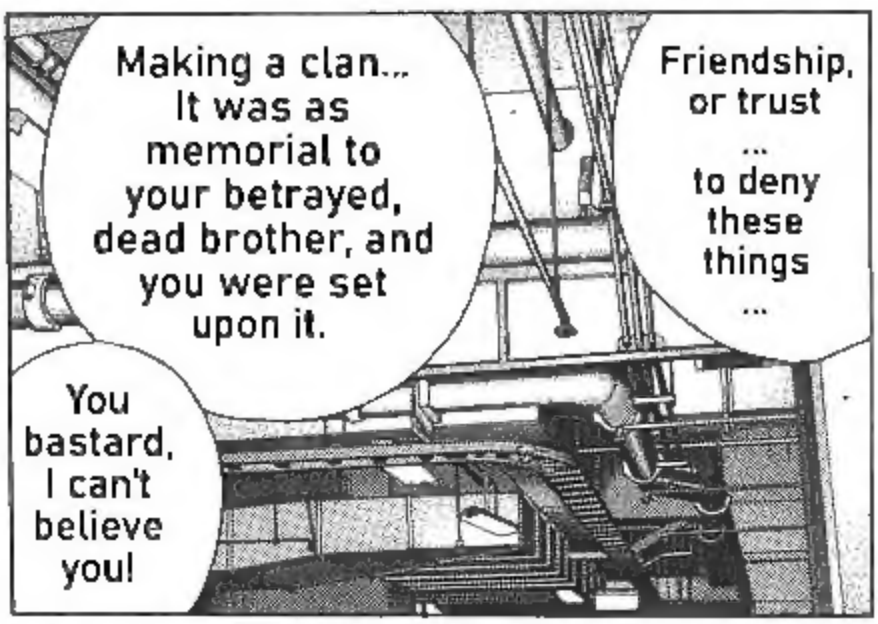
You look pitiful.

.....

He was deceiving you... but, you still faced such danger for him...

Isn't that what you're thinking?
You can't restrain people with fear.

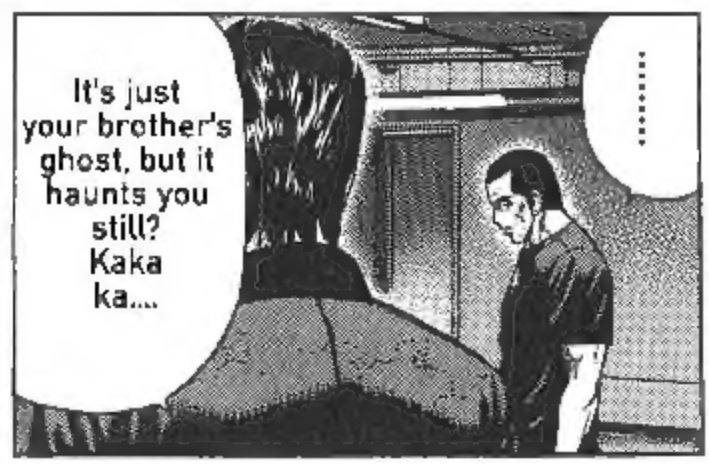
This guy told the story of everything you did and said.



Making a clan... It was as memorial to your betrayed, dead brother, and you were set upon it.
Friendship, or trust ... to deny these things ...
You bastard, I can't believe you!

What!?
Your brother was a mis-fortune.

Kawa shima ...



It's just your brother's ghost, but it haunts you still? Kaka ka....
.....

You already know the answer.

The number one, most important thing, is what ?

But you saved this sorry piece of shit...

You went and did something pretty unexpected, huh?

What was that!?

Fu-
You retard.
